

Jingwen Tan

Department of Economics, University of Copenhagen

E-mail: tjw@henu.edu.cn

Web: tanjingwen.com

ORCID: [0000-0002-3452-959X](https://orcid.org/0000-0002-3452-959X)

Education

Postgraduate in Econ, University of Copenhagen
Copenhagen, Denmark. GPA: 9.22/12

Sep. 2022 - Currently

B.A. Econ, Henan University (Double-First-Class Project)
Zhengzhou, China. GPA: 84/100

Sep. 2018 - Jun. 2022

Graduate Courses

Quantitative: Econometrics II , Advanced Microeconometrics (Python), Demographics,

Advanced Empirical Macroeconomic Analysis, Applied Econometric Policy Evaluation, etc.

Awards

- 2022 8th China Collegiate Statistical Modeling Contest, Provincial First Prize
- 2021 7th China Collegiate Statistical Modeling Contest, National Third Prize
- 2019 6th China Collegiate Statistical Modeling Contest, National Third Prize
- Tax Policy Debate Contest of Henan Province, Champion

Research Projects

[1] Social Integration of China's Migrant Population.

Introduction: This research uses city-level data matched with micro-data from the China Migrants Dynamics Survey (CMDS) to analyze the impact of city characteristics on the settlement intention and social integration of China migrants. The urban variables used include GDP misrepresentation index and transport infrastructure. The study was supported by China's National Science and Technology Infrastructure Platform.

Methods: Binary Response Models, PSM, IV, KHB, Interaction Term.

[2] The Economy Impacts of "Three Gorges Navigation" Quasi-Natural Experiment.

Introduction: The Three Gorges Ship Locks in the Yangtze River is the largest inland navigation project in China, was opened to traffic in 2003. The navigation of the Yangtze River has reduced transportation costs and promoted trade and economic growth in cities along the river. My work empirically analyses the impact of this policy on the GDP and FDI of river-neighboring cities.

Methods: DID, DDD, ArcGIS and Spatial Econometrics.

Presentations

- Apr. 2023 Topic of Development Economics Seminar, University of Copenhagen.
- Dec. 2021 21th China Economics Annual Conference, Session on Regional Economics.
- Oct. 2020 6th International Conference on Economic and Business Management.

Skills

Language: English (fluent); Chinese (native).

Statistics: Stata, ArcGIS, OxMetrics, SPSS.

Coding: Python, Matlab, LaTeX.
